**To:** Board of Directors  
**From:** Bettina L. Mayer P.E., District Engineer  
**Date:** December 31, 2021  
**Re:** Engineering Report for December 2021

---

**Engineering Updates/Activities**

- Santa Lucia School Water Service connection/consolidation project: The Riparian Agency and Service Agreement between the District and the School has been prepared and reviewed by legal counsel. The agreement has been provided to the School for signature. The final grant agreement from the Waterboard is still pending.
- Bennett Way SSMH Rehabilitation Project: The Notice of Exemption was prepared and Resolution 27-2021 finding that the project is exempt under CEQA was adopted 12/21/2021.
- Year end data collection and unit update underway in preparation of water supply update.
- Numerous will serve letter requests and development questions for potential projects.
- Ongoing review of several proposed projects within the District including review of utility plans, easements, and conditions to provide service. New projects tend to be more complex and often include changing configurations, requiring numerous review cycles.

**Nacimiento Water Resource and Recovery Project**

- Nacimiento Water Resource and Recovery Project at the Creekside Well Site. Twin Cities Surveying is working on the survey and base map for the project property and proposed easement. The boundary will be finalized once the title report for the several properties is received.

**Source Control**

- The Wastewater Sampling program is continuing with regular background testing and data collection.
