

Agenda Item

DATE: May 31, 2022

TO: Templeton Community Services District Board of Directors

FROM: Tom Peterson, Fire Chief

SUBJECT: Annual Report

RECOMMENDED ACTION: The Board will review and receive the presentation.

FISCAL IMPACT: None.

BACKGROUND: At approximately 05:35 on 5/18/22, Templeton Fire and Emergency Services was dispatched to the report of a structure fire at 31 Sunnyside Way. Templeton Fire arrived on scene to a fully involved house fire. It took 15 personnel from 4 departments approximately 45 minutes to contain the fire. It is the intent of this presentation to give the Board an accurate depiction of the events and actions that took place that morning.

CONCLUSION: Structure fires are infrequent in Templeton, but are considered what the fire service calls “High Risk Low Frequency”. The High risk and response dynamics are what we want to demonstrate to the Board and the public through this presentation.
