

Please join us for a
**PROJECT WET
WORKSHOP!**

The California Project WET ([Water Education for Teachers](#)) program is designed to promote the awareness, appreciation, and knowledge of California's water resources in a manner that is fun, hands-on and informational for learners of all ages. The interdisciplinary Project WET activities are designed to enhance your existing curriculum and are *aligned to the State Standards for Science, History/Social Studies and English/Language Arts*. Project WET is an applied science program with language arts & social science applications, making each an effective tool for integrating student knowledge of water resources and issues across the curriculum.

Project WET workshops maximize the time engaged in hands-on activities, help educators become familiar with teacher designed features of the guide and provide opportunities to bounce implementation ideas around with fellow educators. Each participant will receive: *a copy of the Project WET Curriculum and Activity Guide- containing (90) activities addressing multiple aspects of water, multiple opportunities to experience Project WET activities, a continental breakfast and lunch and an opportunity to purchase (.6) CEU upon completion of the workshop!*

Wednesday, June 24, 2009 (9:00 am to 3:00 pm)
Templeton Community Services District Community Center
601 S. Main St.
Templeton, CA 93465
