SUBJECT: Templeton Community Services District Urban Water Management Plan

Templeton Community Services District would like to inform the community of the opportunity to review the draft 2020 Urban Water Management Plan (UWMP), which includes a Water Shortage Contingency Plan, and has been prepared according to 2020 State Guidelines. A copy of the UWMP is available to the public for inspection at 420 Crocker Street in Templeton and on the Templeton CSD website.

The UWMP describes the District's water supply, water demands, water reliability, and water conservation efforts. This document provides estimated population growth and water demand through the year 2045 and serves as a long-range planning document for the District. This is the first UWMP prepared by the District.
